The 1961 season was a good one for us. We received the first award of the Oregon State Federation of Garden Clubs at their convention in June; the award was for hybridizing gladiolus, organizing a garden club, flower show judging, lecturing, demonstrating flower arranging and horticulture, teaching junior groups including 4-H clubs, and radio broadcasting on horticultural subjects. We won Oregon Showman of the Year for the third time; Miniature Champion, two 3-spike Miniature champs, Best Vase,--- altogether three trophies, a medal, 7 rosettes, and two shoeboxes crammed full of beautiful ribbons. We won firsts on these: Oscar, Victoria Falls(2), Towhead(2), Golden Filigree, Orange Brilliant(3), Chamouny, Lavender Frills, Oberbayern, Ito, Wedding Cake, Roodkapje, Baby Butterfly, Spunky, Small Talk(2 and Sect. Champ), Chocolate Chip, Louis Hemon(and Min. Champ), Alpenrose, Brown Betty, Filigree, Little Chum, Copper Rose(2), Eileen Churchill(2), Greg Vawter, Jamie, Dutch Beauty, Opera, Golden Harvest, Woodbury, Cadenza, Starface, Lucille, Ace of Spades, Little Egypt, Ariadne, Yvonne, Martha Graham, Elda, Peggy Ann(and Sect. Champ), Moira Shearer, Becca.

Others just as good that missed the shows were these: Li'l Abner, Pink Prospector, Florella, Enchantress, Happiness, Judi Lynn, Twinkletoes, Johnny Boy, Rose Spire, Little Fawn, Jingles, Innocence, Sans Souci, Fireflash, Sweet Debbie, Felicity, Taptoe, High Fashion, Sweet Sixteen, Lavender Spire, Little Diamond, Coq d'Or,

Gold Bank, Ragged Robin, Rainier, Green Sh., Lilac and Chartreuse, Summer Sky, Hippo (18 open!!), Wildwood, Mozart, Wild Rose, Grace Note, Green Ice, Elf, Melodie, Focus, Abiqua, Wedding Cake, Sugar, Rimrock, Van Isle, Color Display, Bandwagon, Pagan, Miss Muffet, Fiasse, Rose Marie, Bon Bon, Thomas A. Stone, Mocky, Peppermint Spurs, Golden Sunshine, Romola, Peach Ruffles, Saucy, Sparkler, Pink Parasol, Joyous, Warrone Diana, Violet Queen, Landmark,, Operetta, Polar Cub, Green Woodpecker, Cimarron, Cinnamon Orchid, Lovely Mary, Atom, Skyscraper, Hit Parado, L'Esperance, Lucia Chase, Radio City, Frolic, Pedro, Osage, Thomas E. Wilson, Tony Po', Island Orchid, Reward, Chemawa, Pink Dots, Angelica, Hi Spd, DeBo's Glory, Cadet, Nightfall. Now if that isn't a conglomeration! Big and little, ruffled and plain, every color, every form.

Many others did very well, but these were absolute tops; we grew over 800 kinds.

A constant source of pleasure at bloomtime is our seedling patch. We now have 100's in every color, some of them not much over an inch across. We recorded a very few last summer that were a little less than an inch. These come in clear colors, with beautiful ruffles, nice spikes, and average to better increase in many. Of course these are not in supply to release, but we hope they will be soon. We also have many fine ones in 200 and 300 sizes, less in the large ones, we didn't cross as many there. The 100's include snow-white with blue edge, same with pink edge, clear light blue, ruffled pure white, light yellow, buff, salmon, ruffled red, purple, chocolate brown, ruffled, deep pink with ruffles and white center, clear rose, lavender, cream, many with markings. We wish we could show them to all of you.

MY CREED

To waken anew with every spring;
To grow in spirit with every summer;
To know fulfillment with every autumn;
To wait with patience each winter through.

-----Mirl Vawter.

---***---

Several kinds are being held for propagation, we hope they will be back next year: Inez, Burma Chief, Whirlybird, Peggy Ann, Dimples, Flair, Salmon Crinkles, Bermuda, La Coruna, Inca--- everybody had to have these, I guess. All we had to plant were smalls and bulblets in most of them, and only a few large Peggy Ann.

PRESENTING FOR 1962:

From my own garden:

BETTINA (296) Brown, all petals have small salmon tips; opens 5 of 16 buds; Rated the highest among seedlings tried at Rhode Island in 1961. To us, Bettina is a decorative type, there is nothing else like it. Waved petals. We do not think it will beat the 4-ft. spiked 200's the judges seem to prefer, so be warned, but WE like it, and so do many others including some of the best hybridizers in the nation. Suit yourself! Prices, Large or medium, \$1.50 each. For us this is only 196.

LONNIE (258) Maroon no markings except the silver-white edges on all petals. No ruffles; opens 6 of 17 buds, and grows about 42 inches tall. Again, our reason for introduction is that there is nothing else like it in commerce. We think it is a valuable addition to its class, certainly sparsely populated. Large or medium size, \$1.50 each.

SUNSHINE SUSAN (124) Of the 57 varieties listed as 100's in commerce in the 1961 classification list, over a third are face-up and only 12, about 20%, have any claim at all to ruffling. SUNSHINE SUSAN joins the ranks of the unruffled. Most of the tiny ones open less than 5; SUNSHINE SUSAN opens 7, on a spike of 15-16 buds, more than are required of 100's. The florets are like tiny six-pointed stars, wide-open, no hoods. Ground color is light orange, a darker orange "brush-stroked" on, with gold darts on lower petals. This little one has been used in arranging with much success, and can win on the show table in the 100 section. Healthy and a good increaser. All spikes look alike, the same height down the row, about 36 inches. Large or medium, \$1.50 each.

From R. B. Glines, Grants Pass, Oregon:

ARABIAN NIGHT (476) (Abu Hassan X Vioblue) The child of two stalwarts like these should go far. This is quite early, in color a clean, deep violet blue, no markings. Height 52 in., 24-in. flowerhead, 8 5-in. florets open of 18-20 buds, 6 in color. A heavy propagator, it resembles Abu Hassan more than Vioblue which is lighter. Stock grown by the originator. Large bulbs, 6 for \$2.00, or 3 Arabian Night and 3 Pedro for \$2.00. Growers' unit, 5L, 10M, 25S, $\frac{1}{2}$ pt. bt., \$22.00 prepaid. Wholesale prices, L-\$25.00 per hundred; M-\$17.00 per hundred; S-\$12.00 per hundred; bulblets, $\frac{1}{2}$ pt.-\$20.00; qt.-\$50.00, f.o.b. PEDRO (247) (Osage X East India Hybrid) Everyone knows Osage, its good color and performance, year after year; Pedro is light

red with two clean yellow lip petals centered by a small darker feather. Opens 8 2 3/4 in. florets in formal order on a spike of 18 buds, height 42 inches. Waved petals, but not enough to call it ruffled. PEDRO has two lip petals on every floret, which is very remarkable; it will win at shows, I wish I could have taken it there last summer. Good health, good propagabion, and the colors are clear and attractive. An early bloomer, about 70 days. Stock grown by the originator. Prices same as Arabian Night. Try this little beauty: you will be well-satisfied.

From C. S. van Dobben de Bruyn Jr.:

COLOR DISPLAY (465) Deep lavender with purple velvet blotch on a white throat. Wide-open 5 1/2-in. florets with 6-7 open on good spikes. This excited much favorable comment last summer but bloomed too early to catch the shows, so we have no prizes to report. L-50¢ each.

DEBE'S GLORY (440) A seedling of Evangeline X Fancy, and opened 8 of 18 buds from # 4's! Clear solid light pink, every spike a good one. Fine not only in our garden but the winner of Award of Merit at Rotterdam, 1960. Large, \$2.00; M- \$1.50.

DUTCH BEAUTY (477) Medium-dark blue, clean blotch of red, plain petals as with most blues. We won a first with it grown from medium bulbs. Opens 7-8 on a long spike. Large, 50¢.

GOLDEN HARVEST (416) Deep deep yellow without markings of any kind. Waved petals, opens 8 on long spikes, healthy and strong. We won a 3-spike first with it easily, last summer. Large, \$2.00 each.

NEW AMSTERDAM (458-558) Solid clean deep red and huge. Had 5 1/2-in. florets from # 4's! A week too early for shows, it received a preliminary Award of Merit for first-time showing in Rotterdam. Unlike most giants, this has excellent attachment. L-\$3.00 each.

QUICKSILVER (455) Clear lovely medium rose, all petals widely bordered white (about 1/8 inch). Won the Prelim. Award last year at Rotterdam, and made beautiful long spikes in our garden. Backs of petals shaded silver. The unusual color combination and good spikes will insure its success. Large, \$1.00 each.

STARRY SKY (277) Somehow we failed to note the whereabouts of Starry Sky, a smaller edition of Oberbayern, blue with large white throat, and while we think we will find it, we won't guarantee it. We have been kept from the bulbhouse for a few weeks with (1) flu, followed by (2) weather, we got everything into one house, cross-stacked from the small one last week. We aren't used to real winter and the small house isn't insulated for it. IF we find this little beauty, no ruffles, however, it will be 50¢ per large bulb! And next year we will surely have it, we promise!

MINIATURE (100) AND SMALL-FLOWERED (200) VARIETIES. NEWER KINDS AT ATTRACTIVE PRICES. (Large-L; Medium-M; Small-S; bulblets-bt.)

ANGELICA (Vawter-60-100) Lightly ruffled pure white with some cream in the throat. Opens 5 $2\frac{1}{4}$ -in. florets of 14 buds. FCC from Rhode Island T. G. NOT a faceup. Has proven a fine parent. Heavy substance. L-\$1.50; M-\$1.00; S-75¢; bt.- 10/\$1.50.

APEX (Butt-58-226) Ruffled salmon orange, throat yellow. L-25¢ M-20¢. S-15¢.

BAMBI (Pierce-54-204) Ruffled green, coppery edges and throat feather; hard to grow from bulblets. Not many L or M this year. L-25¢; M-20¢; S-2/30¢.

BECCA (Vawter-59-296) Ruffled cocoa brown velvet, 6 open on long spikes. Some call it the best small smoky in many years. We can't grow it fast enough! L-40¢; M-30¢; S-20¢; bt.- 10/40¢.

BETTINA - See New Introductions.

BLUE PLUSH (Robinson-59-276) Rich deep violet-blue with plushy appearance. Opens 5 of 15 buds. L-50¢; M-35¢.

BRIGAND (258) An old one, dark red. Only a few to spare at 50¢-L.

CAMELOT (Larus-59-242) Ruffled salmony pink with yellow throat, opens 8-9 on good spikes. L-35¢; M-25¢; S-2/30¢.

COPPER ROSE (Vawter-59-286) Ruffled pure copper-rose, long spikes with 6 open. Always a sellout. L-40¢; M-30¢; S-20¢; bt.- 10/40¢.

BREAD AND BUTTER (Kroon-60-210) Lavishly ruffled clear cream, rich yellow center. Opens 6 but only about 14 buds. Perfect for corsages and arrangements, and isn't that what we want of our flowers? Not many to go, at L-50¢; M-35¢.

CLIFFIE (Buell-61-235) Fragrant bright salmon, cream blotches centered red. Opens 7-8 of 17 buds. L-\$1.50; M-\$1.00.

DUNDEE (Cave-59-246) Heavily ruffled brilliant deep red, velvety texture, just a thin white edge. The very best small red. L-35¢; M-25¢; S-2/35¢.

EILEEN CHURCHILL (Vawter-59-261) Clear orchid, fuchsia blotches, florets in formal order, 8-9 open of 19 buds. We win prizes, first, with it every year. L-40¢; M-30¢.

FELICITY (Baerman-59-260) Ruffled pale orchid, opens 7 of 20 buds. L or M-35¢.

FLUTTERBY (Larus-60-241) A lighter colored edition of Parfait. Its spikes are sometimes too long for the small flowers, but many like these with heads as long as the 400's have. L-50¢; M-35¢; S-25¢.

GREG VAWTER (Vawter-59-276) Clear deep violet, no markings except a thin white line on lower petals; opens 8-9 of 19 buds. We always win with it, and never have enough. L-\$1.25; M-75¢; S-60¢. We had the price lower last fall, but sales forced us to raise it.

FRANCINE (Fairchild-60-250) Heavily ruffled light orchid-rose, opens 6 of 17 buds. We like this little one. L-40¢; M-30¢; S-20¢, GOLDEN FILIGREE (Baerman-61-116) Pure deep yellow, lavishly ruffled and knuckled, with 8 wee 2-inch florets open of 20 buds. We got it to one show where it won a first easily. A real miniature edition of a perfect 400; its only fault is slow propagation. Its bulblets grow into very small bulbs the first year, but once started, they are healthy and grow well. L or M, as long as they last, \$3.00 each. No S or bt. again this year.

GRACE NOTE (Vawter-61-100) The tiniest glad in commerce, opening 6 $1\frac{1}{2}$ -in. florets of 18 buds. Petals are nicely waved and needle-pointed; Best 3-spike seedling, North Santiam, 1960. Color is white but will blush pink in hot weather. We got two reports that Grace Note did not come up to this performance, so we will try to give overcount so you will have more to try. Grace Note's value, as we see it, is its tiny size, good attachment and facing and placing, and its tendency to give its small size and good characteristics to its seedlings while accepting the color and ruffling of the other parent. We are growing about 50 seedlings of Grace Note crossed with 200's, and of these, 49 are 100's, and plenty small enough that there is no danger of their being re-classified. This year the prices are L or M-\$1.50; S-\$1.00; bt.-10/\$1.50.

GREEN ELF (Fischer-60-204) Golden orange with a large green throat. If you want perfect color, buy this; if you want show prizes, pass it up. L-25¢; M-20¢; S-2/30¢.

LONNIE See New Introductions.

MECKY (K&M-60-247) Lightly ruffled light salmomy-red, sulphur yellow throat, an early bloomer. Opens 8 of 18 buds with 7 more in color. This is one of K&M's smaller and better butterflies. L-35¢; M-25¢; S-2/30¢.

MY DARLING (Kunderd-53-155) Ruffled dark rose, rosered-on-yellow throat. Very small, opens 6; we always sell out. L-25¢; M-20¢.

ORANGE BRILLIANT (Vawter-61-126) Velvety deep orange, well-waved petals; throat somewhat deeper, with a gold midline on lower petals. Opens 7-8 $2\frac{1}{4}$ -in. florets of 18 buds. Blooms in 70 days. We won 3 firsts in 1961 on 3 entries. L-\$1.50; M-\$1.50; S-\$1.00. bt.-10/\$1.50.

PARMA VIOLET (Vawter-52-276) Medium-dark blue, dark blue blotches bordered white. Opens 8 of 18 buds, and led its class in the symposium for seven years. L-25¢; M-20¢; S-2/30¢.

PEDRO-See New Introductions.

POLAR CUB (Evans-53-200) Pure white, opens 10 of 20 buds. A show winner, good seller-- the best small white. L-30¢; M-20¢.

RENAE (Lins-60-240) A perfectly sweet pink-and-yellow color blend in a new faceup, with 5 open florets on a graceful spike. Plain petals, and who wants everything ruffled? This has IT. L-50¢; M-30¢. SMALL TALK (Vawter-59-135) Solid color deep salmon with wide white midribs on lower petals. These ribs are edged with purple-smoke. Opens 6 of 18 buds on long spike. We won 2 firsts and a section champ at two shows(all Oregon had last year). We didn't say it was ruffled, but both parents were, and its seedlings are too. Very small, good lasting qualities. L-25¢; M-20¢; S-2/30¢; bt.-10/25¢. STARFACE (Vennard-58-217) Supposed to be yellow with red spears on lip petals; here it is always salmon with yellow center and the red spear. Well-ruffled and opens 7; It's a beauty, but its color (out-of-proper-class) kept it from winning. L-25¢; M-2/30¢. SUNSHINE SUSAN-See New Introductions.

PURPLE POTATOES: We did not get all of our crop planted so do not have any to sell this year. Hope to have more next year.

-----****-----

PYGMY: We thought we had it bought, the owner did not understand that we had accepted his offer and sold to someone else, we're both sorry but it's just one of those things.

-----****-----

There are various standards for small-flowered glads, more so than for larger sizes. If I could set a standard for the small ones, I think it would be something like this:

	<u>Buds</u>	<u>Open</u>	<u>Fl. Head</u>	<u>Height</u>	Floret sizes as
100's	15-18	6-7	12-16 in.	24-36 in.	specified in the
200's	18-20	6-8	16-19 in.	36-45 in.	classification.

The reason for so much variation in some things is that in inch variation in these sizes, especially the 100, is much more than an inch would be in large size, and other attributes should be in proportion. In the 200's, some new ones have extra-long flower-heads and perhaps these may come to be the rule, but as of now, in my opinion, the above are what I like best.

Does everybody grow only for shows? Sometimes it seems so, but I'm sure the majority doesn't. Some do not live near enough to any glad shows; many people just want glads for the garden and to cut once in a while. Maybe we do have too many varieties introduced each year that turn out to be poor quality, and every hybridizer has some of these,— but some of my greatest disappointments have been with varieties that get the highest ratings, and some of my greatest successes have been with varieties that never make the symposiums at all.

For many years I had no opportunity to attend shows, but each year I bought some new varieties, had loads of fun deciding which were best, kept what I liked and threw out what I didn't. Since the only way to see new glads was to order them (and still is in nearly all cases), I thought it a good thing there were many new

ones to choose from. I guess the trouble is, I like the oddest things! (And so do other people.)

-----***-----

Must everything be ruffled? I like ruffles very much, but I like the unruffled ones too. Ruffles denote activity, smoothness denotes serenity. Can it be that our modern pace has reached the point where quietude is no longer part of life? No, after all these years of more and more ruffles, one can still buy plain daisies, roses, nasturtiums, lilies, dahlias and many more. They find acceptance or they would disappear from catalogs.

Somewhere I read that someone felt "stung" when glads had plain petals so I have been specific about the new glads in this catalog so nobody will buy plain ones unless that's what he wants. Thinking the whole thing over, I should hate never to have seen such things as Vagabond Prince, Sweet Sixteen, Atom, Florence Nightingale, The Rajah, Thomas A. Stone, Chamouny, Emile Aubrun, Ariadne, Elf, Little Pal, Margaret Beaton, Sans Souci, Allegro, Rimrock, Eighth Wonder, Zig Zag, Coq d'Or, Little Diamond, Louis Hemon-- because they have no ruffles. The last four have won me championships in the last two years if anyone is interested in the fact.

IF YOU BOUGHT AUCTION BULBS DONATED BY US, and enclose sufficient postage with your certificates, or an order of \$3.00 or more, your bulbs will be shipped in rotation with any other orders. If no postage is enclosed in spite of the fact that we always specify it must be, then we will ship your bulbs about May first when no packing is necessary, and mark your society from our list. Every year we get many requests for auction bulbs. We like auctions ourselves and we are aware that many small shows are thus financed. We are glad to help, but we cannot afford to pay postage on the bulbs we donate. We do not ask for exorbitant postage, just enough, and it isn't much for each purchaser, but we are only a small outfit and we can't afford to pay it. Also, we will send you something extra worth more than the postage you send, that we can afford, but not cash outlay. We have mailed bulbs regularly to some societies, or if they sold certificates the purchasers always send enough to mail their purchases and we shall continue to send to such societies. We hope your society may remain one of these.
